

Tiny
hands
big feats

Respect each child's uniqueness | Nurture a child as a whole being | Create a happy and peaceful citizen

From the Editor's Desk

At its outset, the idea of publishing our e-magazine is to bring forth the core philosophy in a simple yet effective way to all the stakeholders of the Diversity Education Society and others. Being the torchbearer at Diversity, I have always been consciously and responsibly aware that there is a difference between 'Learning' and 'Being taught.' But, how much is being understood and applied in our education system and the parent community has been a crying question for all of us.

However, we all appreciate that the longest journey starts with a baby step.

And, Diversity takes that baby step to **CHANGE**. **Change** for its children's community, **change** for their happiness, **change** for their peaceful present and future, **change** for its nation, and **change** for MOTHER EARTH.

Disclaimer Note: The works presented by our Vividers and compiled by the school in this issue of the magazine have been carefully thought out before formatting and putting them in place to bring them to you.

I fully understand that education means understanding the ever-changing needs of a learner while empowering and enlightening one. It shouldn't be a surprise for us including me that we keep outdoing our previous compilations.

Cheers,
Mehek

Volume 1 (Published for the first time in 2021)

Issue 1 (Quarterly magazine, i.e., will be published thrice a year only)

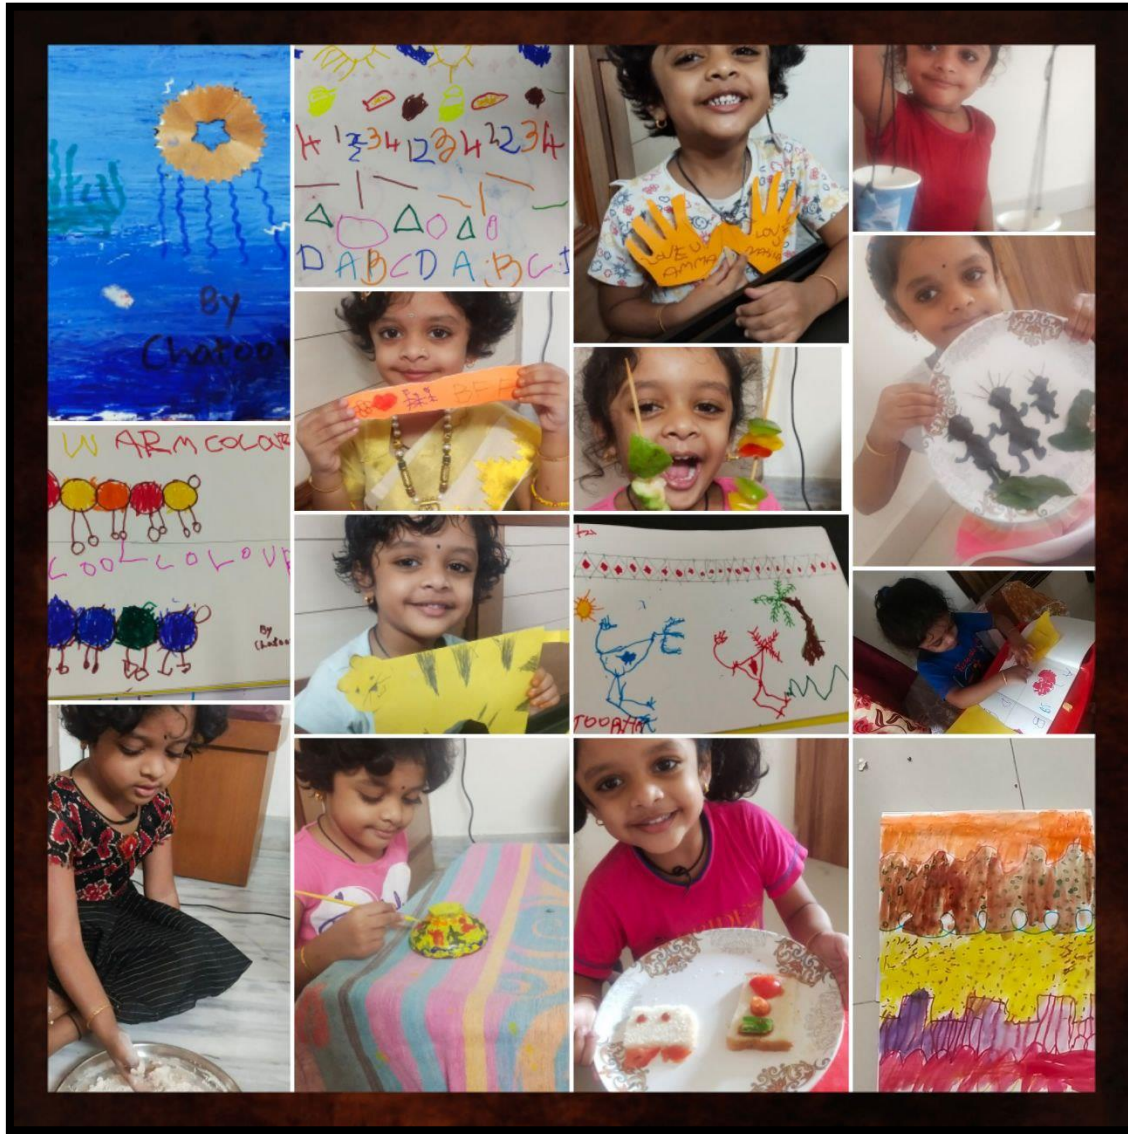

Love for her country is in Aamukta's DNA. We salute you, Officer Keerthi, Addl Superintendent of Police for creating such an environment at home.

Children who have helped in daily chores early have shown higher cognitive abilities in their adulthood-
Courtesy: Akshaj (PP2)

Chatoorya (PP1) learns with all her fervor. Her school celebrates her happy feelings.

Who says children in the pandemic have lost touch with creativity. Courtesy: Manasvini (PP1)

Creative Ideas for DIY MARBLE RUNS

- TOILET PAPER ROLL
- CARD BOARD
- SCISSORS
- RULER
- TAPE
- FEVICOL
- MARBELS

‘Design Thinking’- an exclusive mention in NEP 2020-has never been out of fashion. It comes along with the child and her imagination. Schools and parents have to just provide an environment to kindle it. Courtesy: Swara (PP1)

Time and again,
research has proved
that early readers are
lifelong learners.
Courtesy: Lahari
(Grade 2)

Contained in four walls of homes in the pandemic, only our children know what they have gone through without outdoor play activities. Lakshay (Grade 2) bounces back with sheer resilience.

Dear Myra (PP1)! As long as our mother earth loves Homo Sapians, cooking will remain one of the strongest contenders in the league of passions.

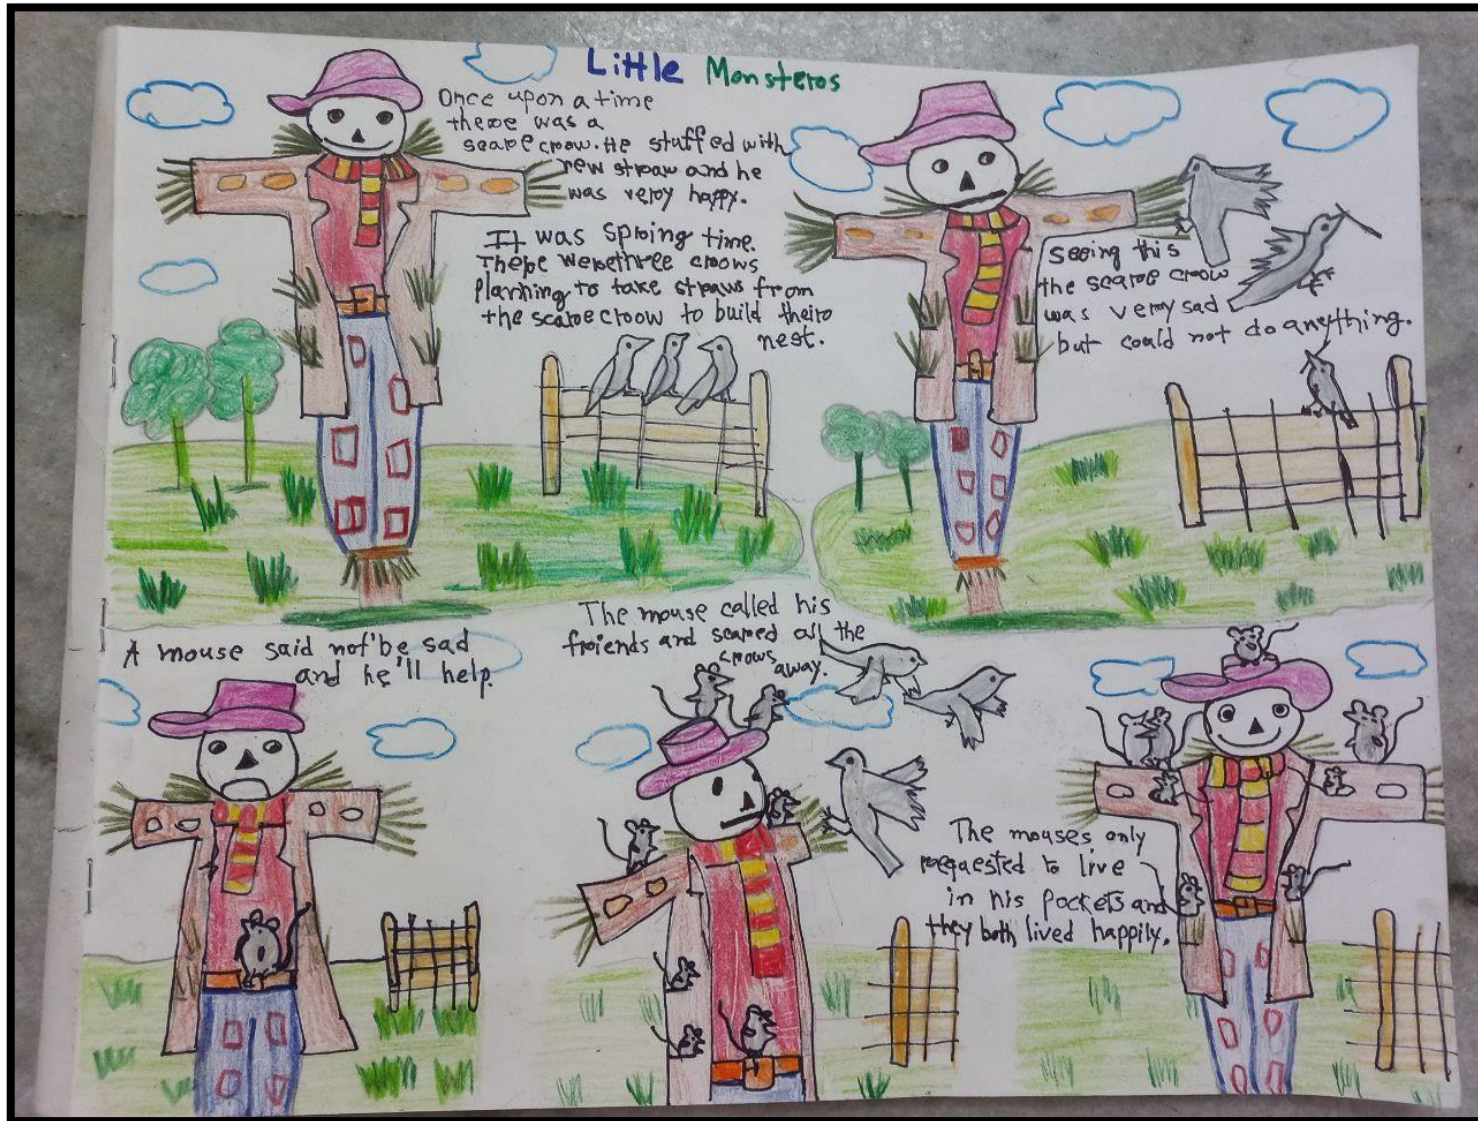

Naitik (PP2) discovers his handsome side. We, his teachers and peers are proud of him for identifying his interesting side in his young age.

Nirvaan (PP2)
finds Nature
paintable.

When words and pictures come together, we call them **infographics** in modern terminology. It is a perfect blend to get one emotionally soaked in a story. Thank you so much Aapti (Grade 1) for your story. This magazine looks so rich with your contribution.

Ishan (Grade 2)
paints heavenly.
Divinity in simplicity!

From Grade 1, Sanskar's hungry soul is exploring the world. Diversity has a huge responsibility to nurture, empower, and enlighten Sanskar. Diversity feels lucky to have you with us.

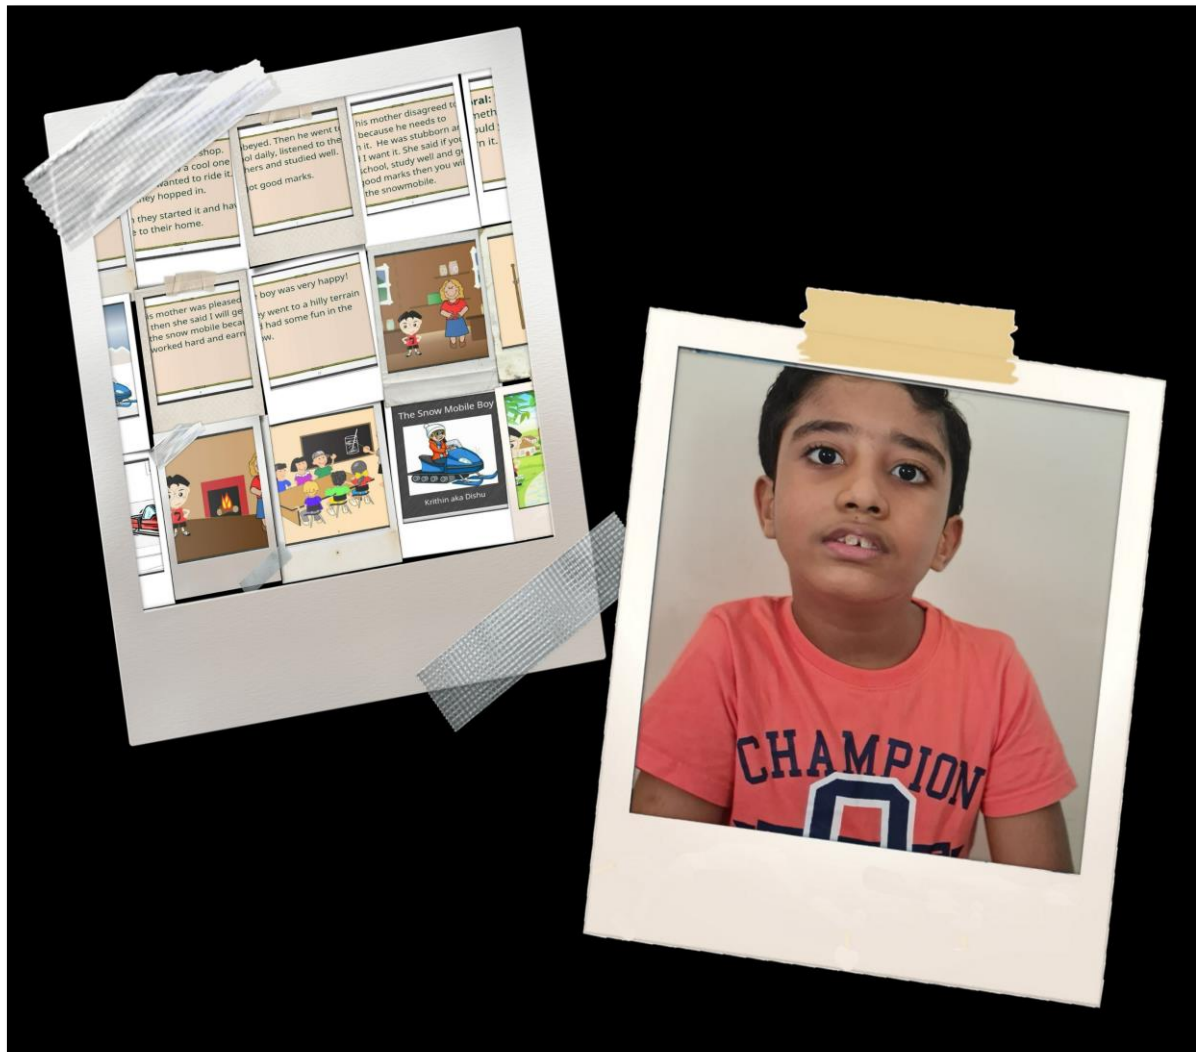

The youngest child, Praajna (Nursery), at Diversity finds our school worthy for her learning journey.

Mathematics and its intricacies are someone else's smarts. Karthikeya (PP2) borrows them responsibly while validating them thoroughly.

With his impeccable English and rich vocabulary, our future storyteller Kritin (Grade 2) is in the making.

Akshaj (PP2) tries his hands on photography. Perfect shots, dude!

★★★★★ just now

I had spent lot of time in and around Gachibowli & Kondapur after 1st wave of Covid-19 so my children will have better education and a school where we can approach teachers easily for any guidance and treat children uniquely. My hunt stopped at Diversity The Playschool where I had got confidence from Mehek how best child can be nurtured to grow mindfully and how they deal with each child uniquely.

Having all expectations, school started off with a parent teacher meet as a partnership to nurture child. School enabled all parents to build all the tools at home with everyday use materials in a simple way. they are indeed very useful and enjoyed making them along with our child :) we appreciate guidance received so far and and I get impressed everyday with unique teaching experience from the school. They observe each child behavior and provide guidance on how we can provide extra support to our kids.

Thanks a lot to Mehek and her team of faculty for the great experience we had so far!

When parents and schools come together to chart a learning path, children feel responsible for their work and their journey becomes worth a celebration. Diversity celebrates many such journeys along the way.

Tata Institute of Social Sciences
School of Vocational Education

Admissions Open

Bachelor of Vocational Education

For 12th Pass | 34 Programme Options | Earn While You Learn*

Image Source : www.freepik.com/

The SVE Advantage

Internship in Each Semester

Work integrated training programme offers opportunity to learn on the job

TISS Campus Immersion

Dedicated days of face to face teaching at TISS campus in each academic year

Earn While You Learn

With internships students get an opportunity to earn stipend while they undergo studies

Flexible Multi Entry- Exit option

After each year, student may take exit from the programme and join back later

Job Oriented Programmes

Industry relevant programmes mapped with national skills qualification framework

Blended Mode of Training (Online + Contact)

Combination of online & contact mode for theory training

To apply visit : www.tiss.edu | Last date for applications 20th Sep 2021

Tata Institute of Social Sciences approves Diversity as its Service Provider for Skills and Knowledge to teachers for their graduate and postgraduate programs. I couldn't ask for more in the lean time of this pandemic.

Blog-Parents & School Play an Important role in Early Childhood development

As a parent, we would like to see our children one step above from our situation. One of the important aspect in parenting is to provide better education or learning experiences so they handle various life situations without much struggle. Also it is important to teach Ethics & values from childhood which we got from our elders to continue the legacy and contribute to better society. With great experiences from our elders as well as lot of knowledge which is available handy in many forums, we are learning continuously and adapting ourselves to experience parenting in a good way!

Schooling plays an important role in child's educational development activities other than Family & Neighborhood.

I had been searching for a pre-school which is very foundational for the child where we (parent) get an opportunity to talk or share a dialogue for the betterment of the child and a School where they understand each child development problems uniquely and provide guidance both to the child and Parent where applicable.

I got to know about "Diversity, The Play School" from a family friend and had a visit to the school once. After my interaction with Mehek, I got into an impression that our expectations will be fulfilled at this school and admitted both my kids.

While time passes, our interaction with school started officially with a parent teacher meet. As mentioned in our interaction, Mehek and her faculty made the online schooling as a partnership between Parents & School in the child's development.

Since then we had multiple experiences.

1. To begin with, lot of discipline fall in place with the school :)
2. DIY tools and learning materials - Received lot of guidance from the school to prepare each and every tool which child can experience at school with everyday use materials available at home and also involved Child in this making process and it has become a very fun filled experience for the child as well.
3. Creative thinking for Parents to teach various aspects in a fun way to the kid. For Parents, it's an opportunity to re-learn everything in a different form. There is a lot of guidance from School on this aspect to think creatively. This is a great experience indeed.
4. Integration of each & every learning with music, dance, art & craft work.
5. A unique learning experience in every class!
6. Not just words but in action, a friendly behavior with the kids!
7. Observation on each and every child, understand their challenges and provide guidance to the parents to overcome them.
